THE NEW WORLD OF ONLINE SHOPPING

DEMANDS

A NEW WORLD OF ORDER PROCESSING

ORDERADMIN

The ONLY WAY

TO MEET BUYERS EXPECTATIONS

IS to TRANSIT

TO THE NEW WORLD OF ORDER PROCESSING

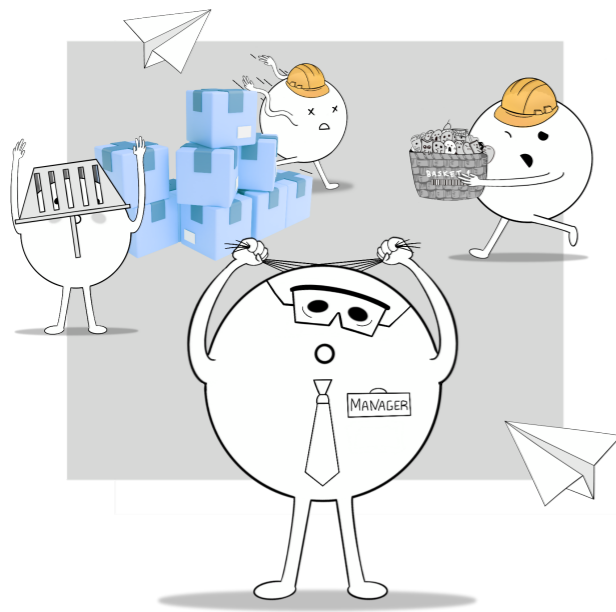

Old world:

Traditional way

Excel Papers E-mails

Several logins for shipping services

New world:

Warehouse management Software

- | | |
|---------------------------------------|-----------------------------------|
| Real time Order&Shipping Statuses | Customer portal |
| Real time one-click all types reports | Ready-to-use integrations |
| All shipping Labels from one place | No cross-orders |
| Warehouse routing for picking | Inventory forecast |
| Low stock remainder | Flexible billing for each service |

We know why you are still struggling to automate order fulfilment processes!

Existing solutions still demand:

a lot of time & **a lot of money**

FOR

- Longtime Onboarding
- Deep Learning
- Expensive commitments

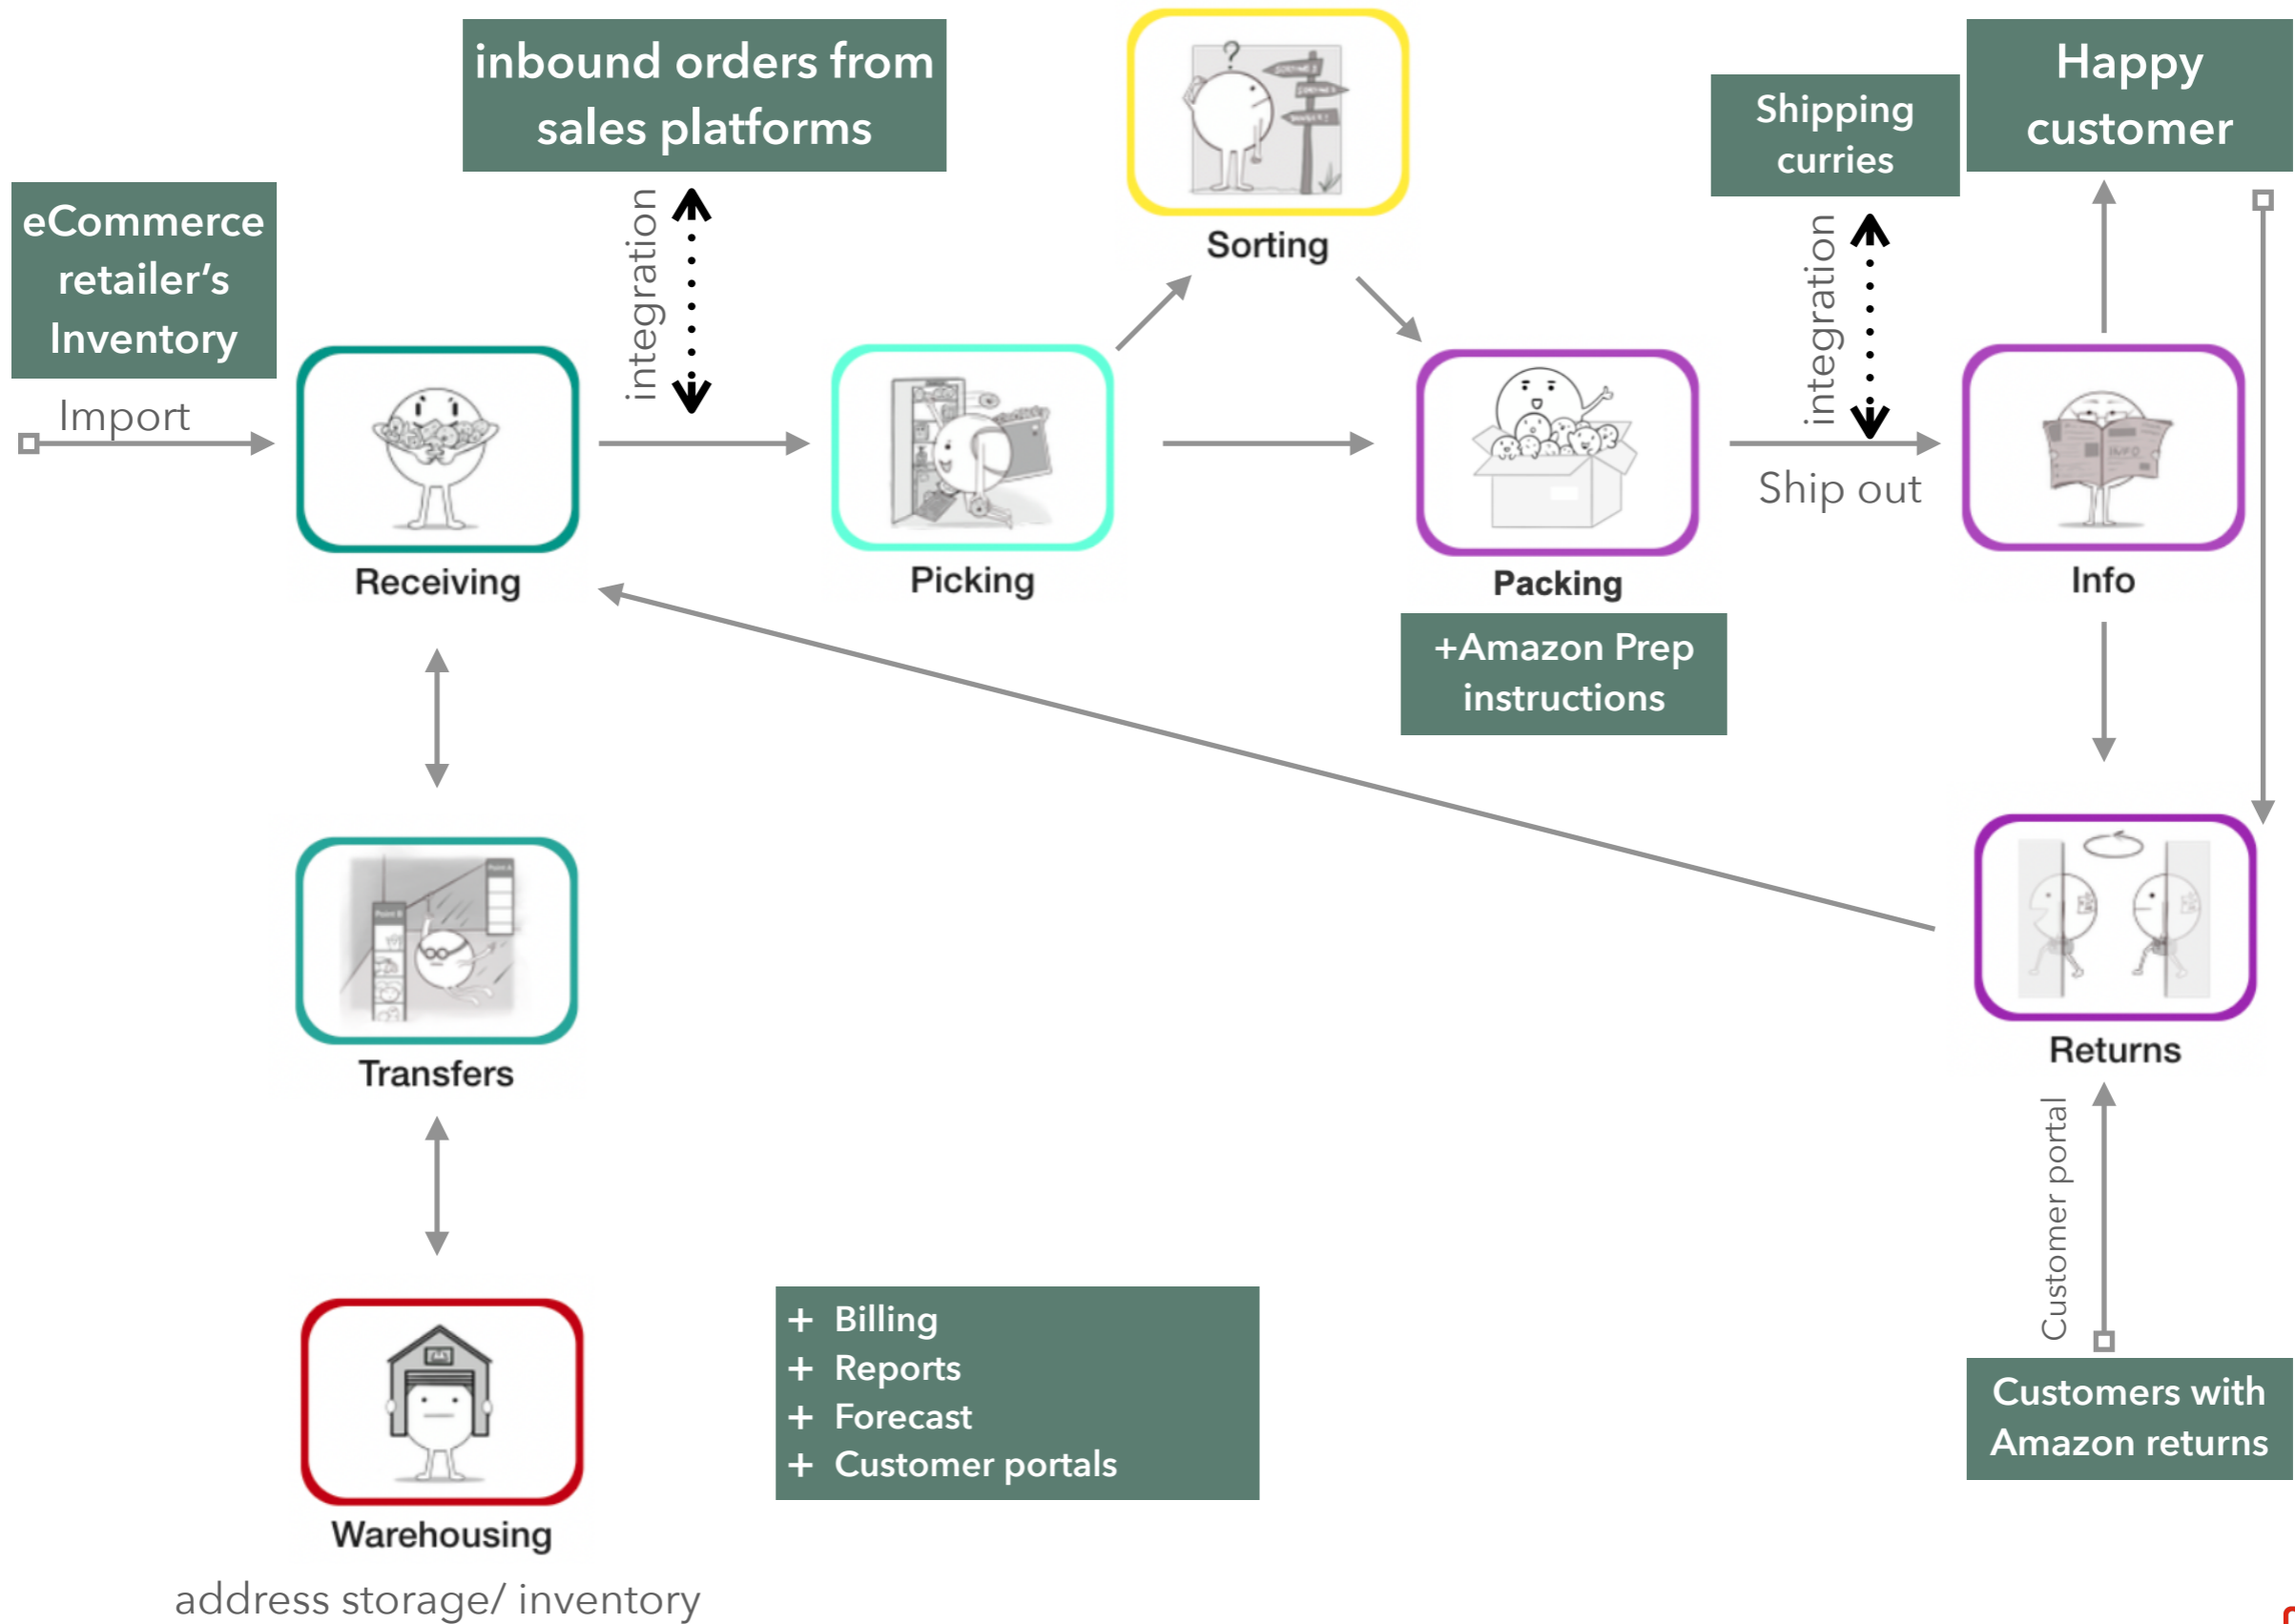

ORDERADMIN

is a WMS that **DOESN'T** demand long onboarding,
deep learning and any commitments.

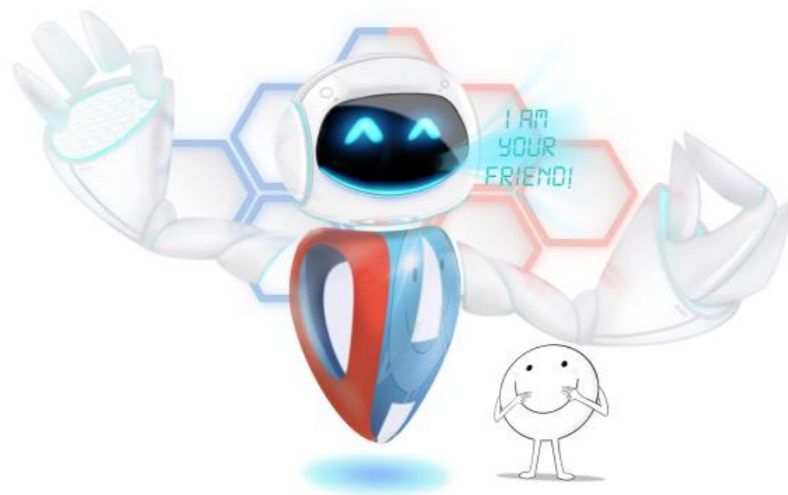

Start working with Orderadmin is that easy as start working with,
for example, Shopify, HubSpot or iPhone.
